

# DOLPHIN

## The poollift for autonomous use

Regain autonomous access to your pool! The poollift Dolphin is a valuable aid to get you in or out of a swimming pool without the need for any assisting person. No underwater installation is necessary. The lift is only fixed on 1 point, at certain distance away from the pool edge. No need for any electrical installation or battery use. The poollift runs on min. 3,8 bar household water pressure only!

Operating levers at the upper as well as at the lower level allow simple operation of the unit. The height adjustable seat turns automatically 90° when lowering or rising. This poollift is very easy to install (and also to demount for storage matters) and is made from high grade stainless steel 316S!

# POOLLIFT

## Simple Installation

The lift requires only 1 fixing point. This allows a fast installation with minimal structural works necessary on site.

## Comfort

The stable structure provides a feeling of safety for the user and assures a smooth lifting in and out of the pool.

## Reliable

Running on water pressure only this lift never fails to work and has no electrical components.

**The stable structure** assures a safe and smooth transfer to the pool

**Lifting between chairs** without great effort and without any help

Control levers at entrance as well as at pool level allow for **for independent control** of the poollift

**Elegant design** makes the poollift fit perfectly into public and private pool environments

## Main advantages of the poollift Dolphin

- No assistance required – independent access to pools
- No underwater fixing required
- Elegant design and 2 available seat colours to choose
- Simple and fast to install
- Runs on 4 bar household water pressure
- Made entirely from high grade stainless steel 316S
- 2 different fixing methods to choose from
- 2 different seat colours (blue and white)

The stainless steel lift can be installed also on **lakes and seashores**

**Roller assembly** can be used for transporting the lift to and from storage sites in case it shall be taken out for the winter season

**Foldable armrest** allows for a extra feeling of safety during lifting and lowering of the chair

## Poollift - Technical Specification

### Facts

Lifting movement	1220 mm standard 1067 - 1600 mm optional
Loading capacity	120 kg
Minimal pressure	3,8 bar
Min. pool depth	1150 mm
Fixing option A Countersunk console	Fixing option B Support fixed on surface
